

THE RISE @ OXLEY

CELEBRATE LIFE IN EXQUISITE SURROUNDINGS

The Rise @ Oxley and The Rise @ Oxley - Residences is a cutting edge commercial and residential development that combines the best of two worlds. The Rise @ Oxley - Residences is perfect for discerning individuals appreciate all that life has to offer. Built in a residential enclave that exudes calm and serenity with a view of Fort Canning Park, you will be delightfully surprised at how close the city and all that it offers is.

Here, you can truly experience life to the fullest!

THE RISE @ OXLEY

artist impression only

Located on the fringes of Singapore's ever-buzzing Central Business District, close to both Dhoby Ghaut MRT interchange and Somerset MRT station, puts you right in the thick of the action whilst enveloping you within a tranquil environment.

WHERE SOOTHING GREENRY MEETS THE SILVER CITY

Plaza Singapura
mall carries daily necessities and more

Dhoby Ghaut MRT Interchange brings you all over Singapore

ION mall provides excellent retail therapy

Central Expressway allows drivers to zip around the island

School of the Arts (SOTA) nurtures artistic ability

Singapore Management University (SMU) fulfils academic potential

Clarke Quay excites with countless nightlife option

Central Business District (CBD) sparkles with lucrative business opportunities

Gardens by the Bay breathes new life into evening strolls

Fort Canning Park invigorates your daily run

Istana Park brings beautiful nature to the city centre

* Travel timings indicated are estimated.

Somerset MRT station and Dhoby Ghaut MRT Interchange is just a stone's throw away from your luxurious abode and gives you direct access to the North-South Line, North-East Line and Circle Line. Drivers will also find it a breeze getting around via the Central Expressway, just minutes away.

ALL THAT YOU DESIRE IS WITHIN ARM'S REACH

FABULOUS FACILITIES REVITALISE EVERYDAY LIFE

Enjoy peaceful nature along a deck adorned with foliage or create unforgettable moments with loved ones by bonding at BBQs and picnics. Take a dip or work on your fitness in the poolside gym. Soothe your soul in the garden lounge or simply melt away the stress of the day in the bubbling jacuzzi. You deserve only the best to make everyday special at The Rise @ Oxley - Residences.

AROUSE YOUR SENSES WITH ENDLESS ACTIVITY

Whether you like being the centre of attraction or prefer quiet time alone, the amenities available at The Rise @ Oxley - Residences will inspire your imagination.

Beautiful landscaping combined with contemporary facilities make this development a place for everyone.

TRY UP AFTER YOURSELF
SAY PLEASE AND THANK YOU
NEVER GIVE UP
DON'T PLAY BALL IN THE HOUSE
ALWAYS TELL THE TRUTH
CHEW, SWALLOW, SPEAK
TRUST IN YOURSELF
NO WHINING
BE RESPECTFUL
KEEP YOUR PROMISES
FORGIVE EVEN WHEN ITS HARD
DO WHAT YOU LOVE
BREAK THE RULES ONCE IN A WHILE

LIFE IS NOT A RACE,
BUT INDEED A JOURNEY.
BE HONEST, WORK HARD,
BE CHOIST, SAY "THANK YOU",
"I LOVE YOU", AND "GREAT JOB"
TO SOMEONE EACH DAY.
LET YOUR HANDSHAKE MEAN
MORE THAN PEN AND PAPER.
DREAMING DOES MATTER.
IT ALLOWS YOU TO BECOME
THAT WHICH YOU ASPIRE TO.
APPRECIATE THE LITTLE THINGS
IN LIFE AND ENJOY THEM.
SOME OF THE BEST THINGS
REALLY ARE FREE.
DO NOT WORRY, TAKE TIME FOR
YOURSELF - PLAN FOR LONGEVITY.

Kitchen fresh air make up duct will be provided to the boundary of each Restaurant for connection.

Local kitchen exhaust ductwork, kitchen hoods, mechanical exhaust ventilation fans, controls, etc within the Restaurant shall be installed by the purchaser as part of fit-out works. The purchaser-installed kitchen exhaust system must be designed to remove oil, smoke & odour so as not to be a nuisance / inconvenience to the neighbours as required by the NEA. It is the purchaser's responsibility to comply with the NEA requirements for air discharge.

Purchase shall connect the control cable provided by the developer for the main kitchen fans to their respective unit kitchen exhaust fan panel for control and interlock purpose. Maintenance and operation cost for the central kitchen exhaust system shall be apportioned to each respective Restaurant.
- h) Town Gas : Town gas supply provided for Restaurants only.

Note:

A. Marble/Compressed Marble/Limestone/Granite

Marble/compressed marble/limestone/granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/compressed marble/limestone/granite as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to clause 14.3, the tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability.

B. Air-conditioning system

To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his/her own contractor to service the air-conditioning system regularly.

C. Television and/or Internet Access

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.

D. Materials, Fittings, Equipment, Finishes, Installations and Appliances

Subject to clause 15.3, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to Architect's selection and market availability.

E. Layout/Location of Door Swing Positions and Plaster Ceiling Boards

Layout/Location of door swing positions and plaster ceiling boards are subject to Architect's final decision and design.

F. Warranties

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser. Notwithstanding this assignment, the Vendor shall remain fully responsible for the performance of its obligations under clause 10 and clause 18.

G. False Ceiling

The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.

H. Glass

Glass is manufactured material that is not 100% pure. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 10 and clause 18.

I. Mechanical Ventilation System

Mechanical Ventilation fans and ductings are provided to toilets which are not naturally ventilated. To ensure good working condition of the mechanical ventilation system, the mechanical ventilation system for the exhaust system within internal toilets (where applicable) is to be maintained by the Purchaser on a regular basis.

J. Wall

All wall finishes shall be terminated at false ceiling level. There will be no tiles/stone works behind kitchen cabinets/long bath/vanity cabinet/mirror.

K. Kitchen Exhaust Equipment

Kitchen exhaust equipment & components (both central and owner-installed), including but not limited to ductwork, hoods, filters, fans, controls, etc, must be maintained, serviced and cleaned on a regular basis by purchaser to ensure proper and efficient operation.

L. Tiles

Selected tiles sizes and tile surface flatness cannot be perfect, and subject to acceptable range described in Singapore Standards SS483:2000.

 - c) Swimming pool, Spa pool, Pool deck : Ceramic tiles and/or homogenous tiles finish
 - d) Staircase : Cement and sand screed finish with nosing
 - e) Handicap Toilet : Ceramic tiles and/or homogenous tiles finish
- 7. Windows**
Powder coated aluminum framed with glass and/or glass curtain wall system.

- 8. Doors**
 - a) Main Entrance : Fire-rated timber door
 - b) Bedroom : Timber door
 - c) Bathroom : Timber door and/or aluminum bi-fold door
 - d) Household Shelter : PSB approved blast door
 - e) Ironmongery : Imported locksets
- 9. Sanitary fittings**
 - a) Master Bathroom : 1 shower set with shower mixer and rain-shower head
1 basin and mixer tap
1 pedestal water closet
1 mirror
 - b) Other Bathroom (If any) : 1 shower set with shower mixer
1 basin and mixer tap
1 pedestal water closet
1 mirror
- 10. Electrical Installation**
All electrical wiring below suspended ceiling within the units shall generally be in concealed conduits where possible. Where there is a suspended ceiling, the electrical wiring above suspended ceiling shall be in exposed conduits/trays/trunkings.

Refer to Electrical Schedule for details.
- 11. TV/Telephone**
TV/telephone points shall be provided in accordance to the Electrical Schedule
- 12. Lighting Protection**
Lightning protection system shall be provided in accordance with Singapore Standard SS 555:2010.
- 13. Painting**
 - a) Internal wall : Emulsion water-based paint
 - b) External wall : Selected oil-based base coat and water-based exterior paint and/or sprayed textured paint and/or vinyl polymer acrylic paint
- 14. Waterproofing**
Waterproofing to reinforced concrete roof, bathroom, kitchen, balcony and terrace.
- 15. Driveway and Car Park**
 - a) Surface driveway : Epoxy resin coat finish and/or PU system and/or granite finish and/or heavy-duty homogeneous tiles finish
 - b) Basement carpark : Epoxy resin coat finish and/or PU system
- 16. Recreation Facilities**
 - a) Swimming Pool
 - b) Jacuzzi
 - c) Pool Deck
 - d) Lounge Pool
 - e) Gymnasium
 - f) Pavilion
 - g) Barbeque Pit
- 17. Additional Items**
 - a) Kitchen Cabinets/Appliances: Kitchen cabinet at Kitchen complete with –
a) High and low kitchen cabinets with countertop
b) One stainless steel sink complete with tap
c) Induction hob and cooker hood
d) In-built refrigerator
e) Washer dryer
 - b) Wardrobes : Built-in wardrobes to all bedrooms
 - c) Air-Conditioning and Mechanical Ventilation : Split unit air conditioning system to Living/Dining and Bedrooms.
 - d) Water Heater : Hot water supply to all bathrooms
 - e) Railing : Mild steel for common stair railing
Aluminum and/or stainless steel and/or glass for other railings
 - f) Security : AV intercom to all units
 - g) Lift : 2 passenger lifts serving Basement to 10th storey

Note:

A. Marble/Compressed Marble/Limestone/Granite

Marble/compressed marble/limestone/granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/compressed marble/limestone/granite as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to clause 14.3, the tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability.

B. Timber strips

Timber strips are natural materials containing veins and tonal differences. Thus, it is not possible to achieve total consistency of colour and grain in their selection and installation. Timber strips are also subject to thermal expansion and contraction beyond the control of builder and vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as required. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.

C. Air-conditioning system

To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his/her own contractor to service the air-conditioning system regularly.

D. Television and/or Internet Access

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.

E. Materials, Fittings, Equipment, Finishes, Installations and Appliances

Subject to clause 14.3, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to Architect's selection and market availability.

F. Layout/Location of Wardrobes, Cabinets, Fan Coil Units, Electrical Points, Television Points, Telecommunication Points, Audio Intercom System, Door Swing Positions and Plaster Ceiling Boards

Layout/Location of wardrobes, kitchen cabinets, fan coil units, electrical points, television points, telecommunication points, audio intercom system, door swing positions and plaster ceiling boards are subject to Architect's final decision and design.

G. Warranties

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser. Notwithstanding this assignment, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.

H. False Ceiling

The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.

I. Glass

Glass is manufactured material that is not 100% pure. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.

J. Mechanical Ventilation System

Mechanical Ventilation fans and ductings are provided to toilets which are not naturally ventilated. To ensure good working condition of the mechanical ventilation system, the mechanical ventilation system for the exhaust system within internal toilets (where applicable) is to be maintained by the Purchaser on a regular basis.

K. Planters

Planters are designed to take the loading of potted plants only. No soil materials or turf/plants will be provided in the planters.

L. Wall

All wall finishes shall be terminated at false ceiling level. There will be no tiles/stone works behind kitchen cabinets/long bath/vanity cabinet/mirror.

M. Tiles

Selected tiles sizes and tile surface flatness cannot be perfect, and subject to acceptable range described in Singapore Standards SS483:2000.
