Notes to specifications:

A Timber strips

Timber strips are natural materials containing veins and tonal differences. Thus, it is not possible to achieve total consistency of colour and grain in their selection and installation. Timber strips are also subject to thermal expansion and contraction beyond the control of the builder and the Vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as required. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17.

B Composite Timber Flooring

Composite timber flooring is manufactured material which contains tonality differences to match natural wood finish. Thus, it is not possible to achieve total consistency of colour and grain in its selection and installation. Composite timber floors are installed in modular planks and are subject to thermal expansion and contraction beyond the control of the builder and the Vendor. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.

C Marble/Limestone/Granite (if applicable)

Marble/limestone/granite (if applicable) are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/limestone/granite (if applicable) as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to clause 14.3, the tonality and pattern of the marble, limestone or granite (if applicable) selected and installed shall be subject to availability.

D Quartz / Compressed Marble (if applicable)

Quartz/ compressed marble (if applicable) is an engineered stone surface that comprises of natural extract from the earth. The pigmentation found in these natural extract sometime varies and as a result, the final products are subjected to variations in colour and vein pattern. Like most materials, excessive force, high point loads, pressure or heat may cause thermal shock, discoloration or damage to the surface. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17.

E Glass

Glass is manufactured material that is not 100% pure. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17.

F Wall

All wall finishes shall be terminated at false ceiling level. There will be no tiles/ stone works behind kitchen cabinets/vanity cabinet/mirror.

G False Ceiling

The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.

H Materials, Fittings, Equipment, Finishes, Installations and Appliances

Subject to clause 14.3, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to the Architect's selection and market availability.

I Air-conditioning system

To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his own contractor to service the air-conditioning system regularly.

J Mechanical Ventilation System

Mechanical ventilation fans and ductings are provided to toilets which are not naturally ventilated.

To ensure good working condition of the mechanical ventilation system, the mechanical ventilation system for the exhaust system within internal toilets (where applicable) is to be maintained by the Purchaser on a regular basis.

K Television and/or Internet Access

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.

L Layout/Location of Fan Coil Units, Electrical Points, Television Points, Telecommunication Points, Audio Intercom System, Door Swing Positions and Plaster Ceiling Boards

Layout/Location of fan coil units, electrical points, television points, telecommunication points, audio intercom system, door swing positions and plaster ceiling boards are subject to the Architect's final decision and design.

M Web Portal and Mobile Applications of the Housing Project

The Purchaser will have to pay annual fee, subscription fee or any such fee to the service provider of the Web Portal and Mobile Application(s) of the Housing Project as may be appointed by the Vendor or the Consenting Party.

N Prefabricated Bathroom Units

Certain bathroom and W.C. may be prefabricated construction and all penetrations are sealed at manufacturer's factory prior to installation on site. Any subsequent penetrations are not recommended as they will compromise the waterproofing warranty.

O Warranties

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser. Notwithstanding this assignment, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17.

P Home Fire Alarm Device (HFAD)

HFAD(s) is (are) provided to give early warning of a fire by sounding an alarm to alert the occupants. The Purchaser is responsible for ensuring that the HFAD(s) is (are) kept in good working condition. The Purchaser is advised to test the HFAD(s) regularly to ensure the HFAD(s) is (are) working.

Q Fibre Broadband

The Vendor shall endeavour to procure an infrastructure for the service provider for connection from its network to the Unit/Building and/or the Housing Project (or any part of parts thereof), so as to enable the Unit/Building and/or Housing Project to obtain the Fibre Broadband. All subscription fee/charges for the service provider shall be borne by the Purchaser. However, in the event despite reasonable efforts being made by the Vendor, the Vendor is unable to procure any service provider to provide the said connection, thereby resulting in there being no Fibre Broadband available in the Unit/Building and/or the Housing Project, the Vendor shall not be liable to the Purchaser for any compensation or for any damages, costs, fees, expenses or losses whatsoever, or howsoever incurred, by virtue of the Purchaser being unable to obtain the Fibre Broadband in the Unit/Building and/or the Housing Project.

AWARD WINNING DEVELOPER

CEL Development Pte. Ltd. (CEL) is a wholly-owned subsidiary of Chip Eng Seng Corporation Ltd, a public listed company in Singapore since 1999.

Spearheading the Group's portfolio in property development, CEL has over the years established itself as one of the industry's fastest rising names. With development projects in Singapore, Australia and Vietnam, CEL has established impressive growth in recent years.

Being a dynamic organisation, we've built our success on the foundations of solid ethical practices and quality standards supported by our vast expertise in the areas of construction, property development and property investment.

With a strong synthesis of youth and experience in our ranks, we are able to leverage on these expertise as a Group to continually push benchmarks in construction and quality, much akin to our corporate vision.

CEL's vision: "To be a leading multi-discipline property development company of choice, one that is synonymous with creating quality homes with outstanding build quality and investment value, thereby creating sustainable value to its shareholders and customers and being a socially responsible corporate organisation."

And with our valued standard practices and dynamic approach, we aim to scale higher heights in the coming years and strive to deliver our promise of quality homes for today and tomorrow.

Disclaimer: While every reasonable care has been taken in preparing this brochure, the specifications and the attached plans, and in constructing the sales models and show-flats, the Developer and its agents shall not be held responsible for any inaccuracies or omissions. All statements, specifications, information, depictions and plans in the brochure are believed to be accurate at the time of publication but shall not be regarded or relied upon as statements or representations of fact. All information, specifications and plans are subject to change/amendments as may be required and/or approved by the Developer and/or the building authorities and other relevant authorities and do not form part of an offer or contract. Visual representations, illustrations, photographs, graphic representations, sales models, show-flat displays, pictures and other art renderings are only artist's impressions of the development and are not to be regarded or relied upon as statements and representations of fact. Photographs for images contained in the brochure do not necessarily represent as-built standard specifications. All areas are approximate measurements only and are subject to final survey. The property is subject to final inspection by the relevant authorities to comply with current codes of practice. The sale and purchase agreement shall form the entire agreement between the Developer and the purchaser and shall supersede all statements, representations or promises made prior to the signing of the sale and purchase agreement and shall in no way be modified by and such statements, representations or promises made.

Date of print: MAY 2019
